

BC'S RESTART

**BC's RESTART:
A Plan to
Bring Us Back Together**

May 25, 2021

A Plan to Bring Us Back Together

BC's Restart is a careful, four-step plan to help bring us back together

Our approach, like last year's restart, is focused on protecting people and safely getting back to a more normal life

We now have an important tool supporting our fight against the pandemic – vaccines

With more and more people getting vaccinated each day, we can gradually restart our important social connections, businesses, and activities

How We Got Here

- **OCTOBER/NOVEMBER 2020** (the Second Wave)
 - Limit guests in private residences to 6
 - Province-wide restrictions introduced for indoor social gatherings
- **NOVEMBER 2020**
 - Province-wide suspension of events
 - Cases and COVID-19 hospitalizations trending up
- **DECEMBER 15, 2020**
 - First vaccine administered in BC
- **FEBRUARY 2021**
 - All of long-term care vaccinated with first dose – declining outbreaks at long-term care
 - Health care workers, Indigenous communities, most vulnerable populations receive 1st dose

How We Got Here

- **MARCH-APRIL 2021** (the Third Wave)
 - Surge in cases
 - Increased pressure on health care system
 - New temporary measures/restrictions (circuit breaker)
 - British Columbians step up and reduce social interactions and travel
 - BC businesses pull together to keep people safe
- **APRIL-MAY 2021**
 - British Columbians register for vaccines in record numbers
- **MAY 24, 2021**
 - More than 60% of people aged 18+ vaccinated with first dose

Vaccination is Making a Difference in BC

New daily rates per 100K population
(7-day moving average)

Foundations for a Successful Restart

People are getting vaccinated

More than 60% of British Columbians aged 18+ are vaccinated with their first dose — everyone 12+ now eligible

COVID-19 case counts declining

7-day average of case counts down more than 65% to 384 (May 23rd) from peak of 1135 (April 12th)

Fewer people are in hospital

COVID-19 hospitalization rates are declining from a 7-day average peak of 505 (May 2nd) to 353 (May 21st)

A steady vaccine supply

More and more vaccines are arriving each week – over 1 million doses of Pfizer in May

Our Focus

Bringing us back together – gradually

Keeping BC safe, getting people vaccinated and making sure our sacrifices aren't put at risk

Providing British Columbians with as much predictability as we can about our path forward

Supporting sectors across our economy as they adjust Safety Plans, return to normal operation

Staying flexible, monitoring the data and learning from our restart

| STEP | Criteria | PHO Guidance | Personal Gatherings | Organized Gatherings | Travel | Sports & Activities | Businesses | Offices & Workplaces |
|--|---|---|---|---|---|---|--|---|
| 1 MAY 25 | C: stable H: stable D1: 60% | Masks mandatory, indoor public spaces Physical distancing If sick, stay home and get tested | Outdoor personal gatherings – up to 10 people Indoor visitors – up to 5 people or 1 household | Indoor seated organized gatherings – up to 10 people Outdoor seated organized gatherings – up to 50 people | Recreational travel within your zone Non-essential travel between zones restricted | Low-intensity indoor fitness classes Outdoor local team games and practices for all ages – no spectators | Indoor & outdoor dining – up to 6 people Liquor service - 10PM Existing WorkSafeBC Safety Plans remain in place | Start gradual return to workplaces and offices Existing Safety Plans remain in place |
| 2 JUNE 15 (Earliest date) | C: declining H: declining D1: 65% | Masks mandatory, indoor public spaces Physical distancing If sick, stay home and get tested | Outdoor personal gatherings – up to 50 people Indoor visitors – up to 5 people or 1 household Playdates | Indoor seated organized gatherings – up to 50 people Sector consultations on next steps on indoor and outdoor gatherings | BC recreational travel BC Transit and BC Ferries – increased services as needed | High-intensity indoor fitness classes - reduced capacity Indoor team games for all ages – no spectators Spectators for outdoor sports – up to 50 people | Liquor service – midnight Banquet halls reopen – limited capacity, Safety Plans Sector consultations on next steps on easing of restrictions | Continue return to work Small in-person meetings |
| 3 JULY 1 (Earliest date) | C: low H: declining D1: 70% | Masks – recommended Careful social contact If sick, stay home and get tested | Return to usual on indoor and outdoor personal gatherings Sleepovers | Increased capacity, indoor and outdoor gatherings – Safety Plan Fairs & festivals with Safety Plan | Canada recreational travel | All indoor fitness classes – increased capacity Limited spectators for indoor sports | Dining – no group limit Bingo halls, casinos and nightclubs – limited capacity Operate based on new Safety Plans | Seminars and bigger meetings Operate based on new Safety Plans |
| 4 SEPT 7 (Earliest date) | C: low H: low D1: 70%+ | Masks – personal choice Normal social contact If sick, stay home and get tested | Normal social contact | Increased capacity on large organized gatherings (i.e. concerts) | Canada recreational travel | Increased indoor and outdoor spectators Return of normal sport competitions – Safety Plans | Continue to operate based on new Safety Plans | Fully re-opened offices and workplaces |

C: C-19 case counts **H:** C-19 hospitalizations **D1:** minimum % of people 18+ with dose 1

Moving Forward Through the Steps

To progress through the four steps of our plan, we will be looking at:

COVID-19 case counts trends

Vaccination rates for 18+

COVID-19 hospitalizations including critical care

COVID-19 mortality

Increased vaccination rates will be central to moving forward

Keeping Each Other Safe

We must keep up our layers of protection as we move through BC's Restart and work towards achieving community immunity.

Get vaccinated

Follow mask guidance

Stay home and get tested when you're sick

Follow WorkSafeBC guidelines for workplaces

It's always safer outdoors

Consider other people's situation

Engaging and Supporting Employers

- Roundtables will be initiated by ministries across government to engage with industry and labour to develop comprehensive updated industry-specific Safety Plans – as well as engaging with First Nations and municipal governments.
- WorkSafeBC will continue to support employers with oversight, tools and resources to help keep their plans up-to-date – including 30 industry-specific protocols.
- Last year, WorkSafeBC carried out nearly 3,900 employer consultations to support employers with their Safety Plans and conducted more than 22,000 inspections in workplaces and sectors experiencing higher transmission.

Updating WorkSafeBC Safety Plans

In Step 1 and Step 2:

Restaurants, bars and pubs, as well as indoor fitness facilities, will return to existing safety protocols in place prior to the circuit breaker.

Accommodation sector to accept bookings from within regional zone (Step 1) and then across BC (Step 2).

For other sectors, existing safety protocols remain in place.

Sector associations will work with public health and WorkSafeBC to update sector guidelines to meet updated public health guidance, in advance of Step 3.

In Step 3 and Step 4:

New public health guidance in place.

All workplace Safety Plans should be updated by July 1 – based on updated sector guidelines – in order to transition to Step 3.

Updated Safety Plans for workplaces will be developed with guidance from PHO and WorkSafeBC.

Employers must involve frontline workers, joint health and safety committees, and supervisors in identifying protocols for their workplace.

Moving Forward, Together

- We are in a position to restart thanks to the efforts of so many – including the more than 2.7 million people who have received dose 1.
- We must support our friends, family and community to get vaccinated, including their second doses.
- We will enter the fall and winter respiratory season as a community vaccinated against COVID-19. We will continue to monitor and respond to COVID-19.
- Everyone's level of comfort and tolerance for risk will be different.
- As we move forward, we will continue to focus on keeping people safe and follow the advice of public health officials.
