We received confirmation that Home Share Providers can now register for their vaccine shot in Fraser Health and Vancouver Coastal Health.

Fraser Health Instructions:

- a. For Fraser Health, this updated process for staff of CLBC funded services has been confirmed to include home share providers. The letter is linked here:

- b. All staff and home-share providers working in CLBC funded services can get their vaccine with this process. Fraser Health asks that you say you are **working as a health care worker - Congregate settings staff and residents –group homes.**

Vancouver Coastal Health Instructions:

The **contracted caregivers** in Vancouver are now eligible to book for their vaccine using the link below ( it is advised that people create an account on the Jane App and keep refreshing for when appointments open...it does happen at any time in the day)

Anyone who provides paid home support/care aid support for CLBC supported individual (s) is eligible in the Health Care Worker stream in Vancouver.

Let us know if you have any questions or need any assistance.

Enjoy the sunny weekend! Get outside, but keep your distance.
